

### Create Adorable Mini Slider Boxes & Fun Dimensional Cards!

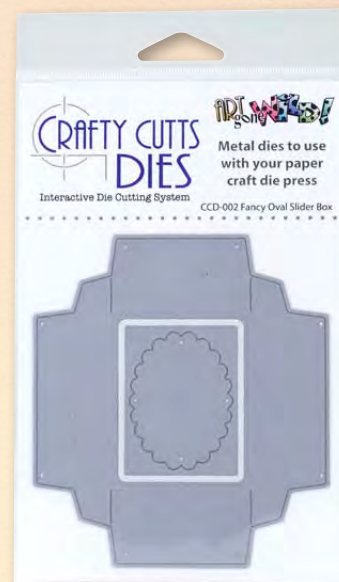

The clear stamp sets in this flyer are specially designed to help you create 3-D scenes, similar to a tiny diorama. Even better, they all coordinate with both our **CCD-002 Fancy Oval Slider Box** and **CCD-007 Small Inset** dies to give you nearly endless options!

For example, the **CCD-002 Fancy Oval Slider Box die** makes a sweet little box that can be presented several different ways. Add a cover that slides open to reveal the contents, or thread a ribbon on one end to make the box into a hanging ornament. You can even add a front flap to form an itty-bitty treat container.

Feel like making a card, too? Use the same stamp sets with the **CCD-007 Small Inset die** to add a recessed area to your card for a whole new "level" of interest.

These projects may be small in size, but they're sure to add a HUGE smile to anyone's face!
