1. Fold 5 1/2" x 8 1/2" white cardstock in half to form card base. Cut 4" x 5 1/4" white cardstock and layer onto 4 1/4" x 5 1/2" turquoise cardstock. Adhere layered panels onto card base.

2. Stamp sentiment and sunshine wheel, flower pot, and bird images onto separate scrap pieces of white cardstock. Stamp sentiment onto 5/8" x 1 7/8" white cardstock and flower border image onto 1 1/4" x 5 3/8" white cardstock. Color images as desired.

3. Die cut colored flower pot image using the 2 3/8" circle die, and layer onto turquoise cardstock that has been cut using the 2 5/8" circle die. Adhere layered circle to right side of card front.

4. Adhere colored flower border strip to front of card, along the bottom edge.

5. Die cut the sunshine wheel image using the wheel die. Die cut the base for the spinner pocket using the patterned cardstock.

6. Push a brad through the punched-out hole on the front of the template base and then through the hole on the stamped spinner circle. Open the brad arms to secure the two pieces together.

7. Fold the flaps on the back of the spinner pocket inward, and adhere corners of flaps together (see black circles in photo for reference; we used Scor-Tape) to form a pocket around the wheel.

8. Apply small squares of foam tape near the sides of the thumb notch openings on the reverse or “wrong” side of the pocket. This will allow the spinner wheel to move freely inside the pocket.

9. Place adhesive along edges of pocket on reverse or “wrong” side of spinner pocket.

10. Layer sentiment piece onto 7/8” X 2 1/8” turquoise cardstock, and adhere to lower right corner of spinner pocket. Fussy cut bird image and attach to front of spinner pocket, just above sentiment.

11. Adhere spinner pocket to the left side of the flower pot image as shown. Take your card for a test spin!
